

**PHARMACY ONLINE REQUEST
FOR
NORTH CAROLINA MEDICAID CLAIMS**

The information below is a request to submit North Carolina Medicaid pharmacy claims via Point-of-Sale (online) with a processing charge of up to \$.075 per adjudicated claim and per reversal of a online claim up to 6 months after the online claim's date of service. The online charges will be deducted from the same RA (Remittance Advice) that pays the claims. The pharmacy may contact their software vendor or preferred "switch" regarding certification for submission of North Carolina Medicaid pharmacy claims and the required BIN or IIN. The pharmacy software in use must be certified by a certified "switch" or VAN (such as NDC, Healtheon/WebMD, QS1) before a pharmacy is allowed to submit online claims. The pharmacy will be notified by EDS of the start date for online claim submission.

Any questions regarding online charges need to be addressed to the online Help Desk at (919) 233-6846.
